Big Bear Computer Club

February 2019 Volume 19 Issue 1

## Ex-President's Message - Yomar

**Hello Everyone.**

I am no longer the President of the Big Bear Computer Club. I have stepped down, and Bill Treadwell is now the President. Currently the club is being re-organized and figuring out what it will become.

At this time we are not requiring, or asking, club members to pay their annual \$25 dues for this year, and you still have membership status.

This newsletter has just one featured "article." You are provided a website where you can personally learn a lot of different kinds of things (pages 2-3)... enjoy a self-tour of their website.

For the time being, here is our email information contact: [treadwell@bigbearcc.org](mailto:treadwell@bigbearcc.org)

## Do you Know about National Freedom Day ?

**Date When Celebrated :** Always February 1

National Freedom Day celebrates freedom from slavery, and recognizes that America is a symbol of freedom.

National Freedom Day was established in 1948 to remind us that America stands for, and is a symbol of freedom for all people. The roots of this special day come directly from the end of slavery and the signing of the 13th amendment outlawing slavery.

Celebrate this day by reflecting upon your own freedoms that you enjoy by being fortunate enough to be in America. Millions of people in the world are not free.

### **Origin of National Freedom Day:**

Major Richard Robert Wright Sr., a former slave, created National Freedom Day. He believed that there should be a day when freedom for all Americans is celebrated. President Lincoln signed the 13th Amendment outlawing slavery on February 1, 1865. So, February 1st was chosen to celebrate National Freedom Day.

On June 30, 1948, President Harry Truman signed a the bill proclaiming February 1st as National Freedom Day.

## Technology Basics...

This screenshot displays the "Technology Basics" section of the website. It is divided into two main columns. The left column, titled "Popular Courses", lists several topics: "Intro to the Internet", "Internet Safety", "Internet Privacy", "Passwords", "Wi-Fi", "Udemy", "Coursera", and "TechBoomers". At the bottom of this list is a "View all Courses" link. The right column, titled "Featured and Trending 'Technology Basics' Articles", features four article cards. Each card has a representative image and a title: 1. A green USB drive on a keyboard with the title "Guide to Data Privacy Day: What It Is and How to Stay Safe Online". 2. A car at night with headlights on with the title "Ride an Uber/Lyft Home from an Office Party: Stay Safe and Save Money". 3. Two iPhones with the title "How to Transfer All Data and Apps from Old iPhone to New iPhone". 4. A hand holding a smartphone with the title "How to Recover Deleted Voicemails on iPhone". Below these are two more article cards: 5. A person typing on a laptop with the title "Best 12 Online Typing Tools to Improve Your Speed and Accuracy". 6. A hand holding a smartphone next to a laptop with the title "How to Transfer Photos from PC to iOS".
